

Jerry Bucket

Oxfam Standard

Description

The improved 14-Litre bucket was designed to act as a stackable safe water container rather than a multipurpose bucket and combat the alarming incidence of drinking water contamination and associated adverse health effects.

The 14L capacity, heavy duty plastic water bucket with tight-fitting lid, handle and clip-on cap is solely designed for the transport and storage of safe drinking water. The new lid with larger opening is very difficult to remove and prevents the bucket to be used for other purposes than storing drinking water. The larger opening makes filling easier and allows access for cleaning.

Made of virgin HDPE high density polyethylene (body of the bucket, lid and cap) and virgin LDPE low density polyethylene (handle). Offers solution for water storage, protected from pollution with the clipped cover and cap. Easy to fill up and pour with the 100 mm opening.

Stackable for storage and stockpiling. Easy to carry by hand with the strong flat handle and on the head thanks to the rounded bottom reinforcement ring. Strong and durable quality for a long-life span in tough conditions.

Weight and Volume

Capacity:	14 L min.
Dimensions, (±5%):	<ul style="list-style-type: none"> - Height 300mm. - Top diameter: 300 mm. - Bottom diameter: 240 mm. - Cover with clip-on-cap of 100 mm ±5%
Gross Weight:	860 +/- 5% Bucket body, lid with clip-on cap and handle

Item specification

14 litre capacity, difficult to remove tight-fit lid in HDPE	Lid: the bucket is supplied with a lid that is able to close tight and extremely difficult to take off.
large opening in lid with clip-on-cap	
plastic handle (LDPE) attached	Outer diameter of clip on cap: 108 mm +/-5%
reinforced top (HDPE)	Inner diameter of cap: 100 mm +/- 5%
tough durable UV treated plastic	Outer diameter of cap: 104 mm +/- 5%
curved inside base to wall join for easy cleaning	Reinforced bottom ridge to prevent scraping of the base.
stackable	Reinforced top to prevent ovaling.
Manufacturing process: injection moulding.	Curved inside base to wall join for easy cleaning.
Capacity: 14 Litre minimum.	
Material: made of food grade virgin HDPE high density polyethylene and virgin LDPE low density polyethylene, according to EN1186-3-9.	Colour: container: White; lid with clip-on-cap: Bright Green (Pantone 7488c)
Handle: Plastic (LDPE), to ensure the easy to carrying by hand with a strong flat handle (i.e. without sharp edges)	Weight: Bucket min. 650g, lid and lid cover min. 175 g, handle min. 30 g.

Packing and Loadability information

200 Jerry Buckets with lids stacked on pallet.

Dimensions:	120 x 100 x 124 cm
Gross weight:	190 kg
Loadability with pallet:	40' HC = 44 pallets @ 200 pcs/pallet + 8,800 pcs
