

Viva Winterization Kit

ICRC/IFRC Standard

› Key features

- › Specially designed for [Viva Family Tents](#) to improve the insulation against cold climates
- › The kit includes the following items:
 - 5 insulated sleeping mats
 - 1 winterization liner
 - 1 partition
 - 1 heat-resistant floor protection (for stove) and
 - 1 heat-resistant chimney sleeve
- › All components are fire retardant to the level of CPAI84 regulation
- › All materials and additives are non-toxic, free from asbestos and other toxic products according to the EC regulations
- › Individually packed in a strong, waterproof plastic bag made of standard plastic tarpaulin
- › In case FR tent is used, no partition in the kit is to be supplied as the same is available in the tent itself

› Insulated flooring mats

Designed to protect families against cold from the ground or in any other floors during cold weather

Dimensions	1.8 x 0.9 m per mat
1st layer, plastic floor mat	Tight woven twill structure, double thickness, virgin PP multifilament 500 deniers in warp, minimum 1,000 tubes/meter, 500 gsm minimum weight
2nd layer, alumnized canvas	Synthetic canvas with durable aluminium coating
3rd layer, fleece blanket	Refer to our Medium Thermal Synthetic Blanket
Design	Heavy-duty ribbon strongly stitched all around the mat

› Graphic reference

i The Winterization kit does not include any stove/heater or fuel. These items must be purchased separately.

Viva Winterization Kit

ICRC/IFRC Standard

› Inner liner

Designed to fit together to the liner's attachment points and heater flue pipe protection

Dimensions	Centre height 2.30 m, 3.80 m wide, 1.35 m wall height, 3.80 m base length (slightly different as per tent description)
Materials	<ul style="list-style-type: none"> » 130 gsm $\pm 10\%$ in finished state except retardant weight » Tensile strength: ISO 13934-1, warp and weft 300N minimum » Tear strength: ISO 9073-4, warp and weft 20N minimum » Colors: Available in yellow, beige, cream or sand
Design	Made from one fold of breathable, rot-proof, fire retardant canvas

› Heat-Resistant floor protection

Can be used in any tent to protect the ground sheet when using a stove or heater

Dimensions	4-6 plates 4 mm thickness, 0.5 x 1 m total surface
Materials	Fibrocement plates, 100% fire-proof and rigid material

› Heat-Resistant sleeve

Can be used only with tents originally equipped with standard chimney patch and flap as described in our [Viva Family Tent](#) specifications

Dimensions	350 x 700 mm base, 400 mm length, 150 mm hole diameter
Materials	<ul style="list-style-type: none"> » 100% fire-proof, tear-proof, water-proof soft canvas » Tear resistance under ISO 9073-4: minimum 40N » Waterproof under ISO 811: minimum 20 hpa (20 cm)
Design	Pyramid base has velcro to grip to the velcro of the tent chimneyouter flap

› Packing and shipping

	All items are packed in bale to make one kit
Content per bale	All mentioned components and instruction sheets
Weight per kit	35 kgs approx.
Dimension per kit	93 x 45 x 40 cm
Volume per kit	0.17 cbm
Number of kits per pallet	4
Dimension per standard pallet / Euro pallet	112 x 80 x 110 cm / 120 x 80 x 110 cm
Volume per standard pallet / Euro pallet	1.01 cbm / 1.056 cbm
Weight per standard pallet / Euro pallet	153 kgs / 164.5 kgs approx.

› Estimated loadability¹

Containers	With CRI pallets	With Euro pallets	Without pallets
20' GP	28 pallets, 112 kits	22 pallets, 88 kits	160 kits
40' GP	60 pallets, 240 kits	48 pallets, 192 kits	340 kits
40' HC	60 pallets, 240 kits	48 pallets, 192 kits	400 kits

¹ The loadability provided is based on the maximum volume and weight capacity of the containers. This might change due to road weight restrictions in the country of destination. Please contact our sales team for further clarifications.
