

# **Jerry Bucket**

## Oxfam Standard

## > Key features

- » Improved 14-litre bucket designed to act as a stackable safe water container (rather than as a multipurpose bucket) and to combat the alarming incidence of drinking water contamination
- » An HDPE lid is tightly fitted to the body of the bucket through an improved rim lock design
- » A larger lid opening with a clip-on-cap allows better cleaning and easier filling from hand pumps
- » An optional tap makes taking water from the container simple
- » The curved edges at the base prevents dirt and bacteria accumulation
- » Made from virgin HDPE high density polyethylene (body of the bucket, lid and cap) and virgin LDPE low density polyethylene (handle)
- » Allows easy distribution in large numbers and considerable freight savings
- » Strong and durable quality for a long-life span in tough conditions
