

Winter Liner for Geohome Family Tent

MSF/WFP Standard

Flame retardant

Rot-proof

Cold and wind protection

› Key Features

- › Specifically designed to winterise GeoHome, the geodesic family tent of ICRC/UNHCR and IOM standards.
- › An insulated winter tent to be placed directly in the family tent to keep the warmth inside and prevent heat loss.
- › Helps regulate temperature and reduce condensation inside the tent.
- › An extra layer of protection against extreme cold and strong winds.
- › Flame retardant and rot-proof.

› Dimensions

Centre height	2.20 m
Length and width	5.35 x 4.10 m

› Materials

Winter liner

Winter liner is made in 3 layers of quilted fabric: the outer and inner layer is made of 100 g/m² polycotton blended fabric, and the middle layer is of 80 g/m² polyester wadding (FR treated EN-13823+A1)
